GURKIRAT SINGH

Winnipeg, MB | gurkiratsingh20004@gmail.com | linkedin.com/in/gurkirat-singh-113761306 | github.com/GurkiratSingh3630

PROFILE

Third-year Applied Computer Science student with hands-on experience building full-stack web applications, designing relational and document databases, and delivering software for real users. Proficient in JavaScript/TypeScript, C#/.NET, Java, REST APIs and SQL. Comfortable working in agile teams on development, testing and troubleshooting, and seeking software development internship and co-op opportunities.

EDUCATION

University of Winnipeg | BSc, Applied Computer Science Expected April 2027

Relevant coursework: Software Design, Advanced Internet Programming, Database Systems, Systems Analysis and Design, Data Structures and Algorithms

TECHNICAL SKILLS

Languages and frameworks: JavaScript, TypeScript, Java, C#/.NET, Python, C, C++, HTML, CSS

Web and databases: React, Node.js, Express.js, Pug, RESTful APIs, microservices, PostgreSQL, MongoDB, DB2, Microsoft Access

Development practices: Git, GitHub, Visual Studio, VS Code, CI/CD pipelines, automated testing, object-oriented design, debugging

Collaboration and platforms: Jira, Confluence, Microsoft Teams, SharePoint, cloud, containerized and mainframe environments

SOFTWARE PROJECTS

Singh Auto | Node.js, Express.js, MongoDB, Pug, JavaScript GitHub

- Developed a full-stack automotive service application with registration and login, service booking and an admin dashboard, connecting server-side routes, Pug interfaces and MongoDB storage.
- Built RESTful API endpoints, a price-estimate API, file uploads and server-sent events, with form validation throughout.
- Integrated server-side error logging and 404/500 handling to streamline root-cause analysis and troubleshooting.
- Used Git and GitHub for version control while developing and debugging features.

Student Advising Database | PostgreSQL, SQL, MongoDB

- Designed relational tables and relationships for students, advisors, advising sessions, topics and communication channels, and wrote SQL queries to retrieve and analyze advising records.
- Created a NoSQL representation of the same domain and compared relational and document-based data organization and access patterns.

Personal Portfolio | HTML, CSS, JavaScript

- Designed and built a responsive portfolio site with a mobile navigation menu, persistent dark mode, scroll-based animations and an interactive typewriter hero, optimized for cross-browser support and fast load times.

WORK AND VOLUNTEER EXPERIENCE

Volunteer Web Developer | Laddi Taxi Service, India

- Engineered and deployed a responsive customer-facing website for ride bookings across India, focused on trips between Punjab and Delhi Airport.
- Implemented self-service car and appointment booking features that streamlined daily dispatch operations.

Programming Tutor | CRC Institute, Nawanshahr Jun 2022 - Mar 2023

- Provided individual and group instruction in C, C++ and C#, covering programming fundamentals and object-oriented concepts.
- Helped students identify coding errors, debug programs and solve practical exercises, adapting explanations to different learning levels.
